A Note on your career and "family" life since 62!

In 1969, with College and Grad School behind me, my husband, Dan, and I and our young son, Alex, headed to Alaska. Our 16 years in the North brought us three more children and years of interesting and challenging work with the indigenous people of Alaska. Our 1984 return to Amherst was the beginning of our move from the field of education to the world of fine bookbinding and the art of paper marbling. Our life now includes three grandchildren and an active bookbinding and paper and fabric marbling business.

A Pleasant memory from Amherst High:

Who can forget the cake auctions. There was a time when Holly Moore offered up his version of a shop teacher's cake. Frosted blocks of wood! perhaps that's when they began insisting that all cake ingredients must be listed!

A teacher and a moment to remember:

I remember Miss Lawson for her endless good nature and Miss Donley is forever fixed in my mind as THE teacher whose class one never entered unprepared.
